

Brookies™ Diapers, Training Pants and Baby Wipes FAQ

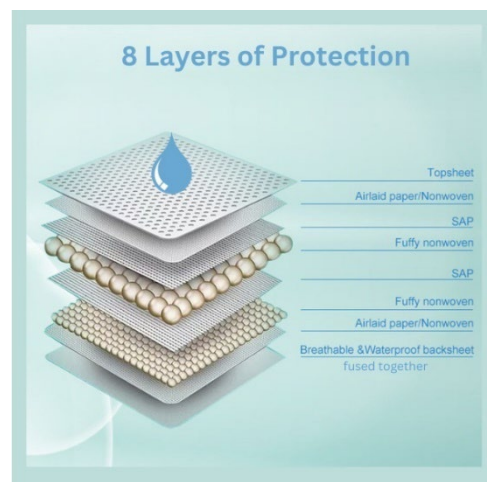

How well do Brookies™ absorb liquid?

Brookies™ have 8 layers of material including 2 layers of SAP (Super Absorbency Polymer) and 2 layers of fluffy non-woven material. This design ensures maximum absorbency and a thinner diaper.

Watch our liquid test video:

Please feel free to do your own testing so you can feel comfortable when speaking with your diaper recipients. We know you will quickly see that Brookies™ outperforms the competition.

Reference Information

	Size	Weight Range	Dimension (L*W)	Total WT.(g/pcs)	Absorption (ML)	Main Features
Diapers	NB	Up to 10 lbs.	36x28cm	17	450 ml	1. Rectangle Magic tape 2. Belly button cutout
	1	Up to 12 lbs.	36x28cm	17	450 ml	1. Top sheet: Soft non - woven fabric with punched hole 2. Back sheet: Very soft, breathable layer 3. 3D-leakage protection 4. 	4T - 5T	35+ lbs.	52x41 cm	29	800 ml	
	5T- 6T	40+ lbs.	54x43 cm	30	900 ml	

Why are your diapers so thin?

2 layers of SAP and 2 layers of non-woven material create thinner layers of protection and reduce the bulkiness of traditional diapers.

Are Brookies™ products sold in retail stores?

No, they were designed exclusively for non-profit organizations to use in the fulfillment of their mission to assist families in need.

Are Brookies™ Diapers and Training Pants considered Unisex?

Yes, they are designed for effective absorption for boys and girls.

Why are Brookies™ Diapers packed in plastic bag cases instead of cardboard boxes?

Our mission is to increase the impact of your organization by helping more families. The cost of boxing Brookies™ diapers would significantly increase the shipping cost resulting in fewer diapers available to your communities.

Can we order Brookies™ in a clear pack instead of that branded package?

We think your clients will love our packaging and unisex diaper patterns. If you prefer a clear bag, with your own sticker, a full 40’ container of diapers can be customized. Contact your HDI Wholesale Account Manager to learn more.

Can we order a different pack count for our diapers, so our volunteers can repack them?

Brookies™ packages contain 25 diapers. In working with the National Diaper Bank Network, as we developed our diapers, we learned that distributions of 25, 50 or 75 diapers are most common. We matched that quantity for your convenience. If you distribute a different quantity, our 25 packs can serve as a “quality control” tool, as your volunteers repack them with your own bag and labeling sticker.

What sizes do you carry?

Diapers: Newborn through Size 6.

Size 7 coming in late 2024.

Training Pants: 2T through 6T sizes are in stock now.

Do you carry Baby Wipes?

Yes! Our baby wipes are wonderful quality, hypoallergenic, fragrance free and help take care of your baby’s greatest messes! Actually, they take care of messes for people of all sizes!

How long can a baby wear Brookies™diapers?

Brookies diapers will outperform the competition and are perfect for normal daily use. This guide shows average daily use of sized diapers by age.

DIAPER SIZE	WEIGHT	AGE RANGE	DAILY USE
Preemie	< 6 lbs.	premature	As needed
Newborn	Up to 10 lbs.	first few weeks only	8–12 diapers per day
Size 1	8–14 lbs.	birth–4 months	8–10 diapers per day
Size 2	12–18 lbs.	3–8 months	8–9 diapers per day
Size 3	16–28 lbs.	5–24 months	6–7 per day
Size 4	22–37 lbs.	18–36 months	5–7 per day
Size 5	> 27 lbs.	Older than 3 years	As needed
Size 6	> 35 lbs	Older than 4 years	As needed
